# **CHEMISTRY**

The majors offered by the Department of Chemistry prepare students to enter the chemical industry or graduate school and provide an excellent foundation for professional studies in medicine, forensics, pharmacy, business, law, and other areas. Students interested in secondary education are encouraged to consider the 4+1 M.Ed. Track at Eastern.

#### Majors

- · B.S. in Biochemistry-modern studies at the interface of chemistry and biology, also an excellent pathway for pre-med
- · B.S. in Chemistry-classic and innovative development of theory and laboratory skills
- · B.S. in Chemistry-Business-practical training in business skills and technical knowledge, can be combined with an accelerated MBA Track at Eastern
- · B.A. in Biochemical Studies-optimal pathway for pre-pharmacy, including partnerships with Temple and Howard Universities
- 4+1 Track in Forensic Chemistry-accelerated B.S./P.S.M. with **Temple University**
- · 4+1 Tracks in Biotechnology, Bioinformatics, and Bioinnovation

#### Mission

Through rigorous studies of chemical principles, hands-on laboratory analysis and original research, we cultivate students for advancement in their fields by equipping each with tools to be careful thinkers, creative problem solvers, clear communicators, and skilled experimentalists. We examine the handiwork of God - the display of His glory evident in the molecular complexity of the natural world - so students called to science can lead meaningful lives of service as effective stewards and agents of God's redemptive purposes.

# The Major for the B.S. in Biochemistry

Accredited by the American Society for Biochemistry and Molecular Biology (ASBMB)

#### Forensic Chemistry 4+1 Track

The 4+1 forensic chemistry accelerated track leads to a B.S. in Chemistry or Biochemistry from Eastern University followed by a Professional Science Masters (PSM) degree in Forensic Chemistry from Temple University. Graduate coursework begins in the fall of junior year at Eastern. Students take one Temple graduate course per semester until the end of senior year so that an entire year of graduate studies is completed concurrent with the undergraduate degree. Students who meet the requirements are guaranteed admission to Temple following graduation from Eastern to complete the PSM degree in one additional year. The year of full-time graduate studies at Temple includes a professional internship.

# **Professional Science Tracks**

Students majoring in B.S. Biochemistry can pursue a 4+1 track leading to a Professional Science Masters (PSM) degree from Temple University in any of the following growth areas: Biotechnology, Bioinformatics,

#### 4 Chemistry

Bioinnovation or Scientific Writing. Graduate coursework begins in the fall of junior year at Eastern.
